

# GLOBAL AWARENESS SPECIALIZATION

## PROFESSIONAL DEVELOPMENT INSTITUTE (PDI)

The UA Career Development Center announces a new specialization offered with the Professional Development Institute (PDI). Students now have the option to add the **Global Awareness Specialization**.

The Professional Development Institute is committed to enhancing students' professionalism and empowering students to present themselves successfully as candidates for employment or for graduate schools.

Adding the Global Awareness Specialization demonstrates a student's interest in other cultures and languages and helps the student reflect on how this global awareness can impact the workplace. We recognize the tremendous benefit to our students of thinking globally as they enter the workplace. The Global Awareness Specialization gives students the opportunity to learn about other cultures and languages in addition to sharing their own talents and skills with those from other countries. We want to do everything we can to encourage students to expand their experiences and think with a global perspective.

### Global Awareness Specialization

The Global Awareness Specialization includes 4 components. In addition to the regular PDI requirements, students opting to complete this specialization will complete one activity in each of the four following areas:

1. Language Awareness
2. Cultural/ Social Awareness
3. Global Workplace Issues
4. Reflection
