## New Graduate Student Resources at the Career Development Center

The University of Arkansas Career Development Center has recently added new resources for graduate students on campus.

Noticing an underutilization of Career Center services, Director Barbara Batson teamed up with The Graduate School's Drs. Geren and Koski to determine what else can be done to help graduate students on campus in terms of preparing for and attaining employment.

The result was to hire a graduate research assistant for a year to do a needs assessment.

Due to the research results, new efforts are being

made to reach graduate students in new ways for 2004-2005.

### New Resources include:

-Semester Newsletter

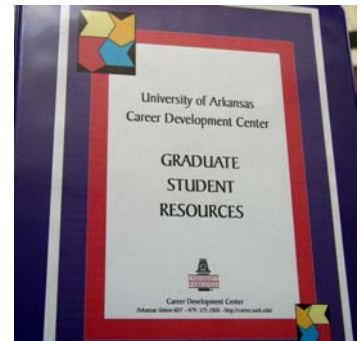

-Departmental Contact People Listserv to share information with students

-Graduate Resources Manual applying to graduate schools and preparing for employment

-New links on Center website

-Graduate Assistant hired to be contact for graduate programs

*Existing services at the Center are still for all U of A students.*
